### **Web Designer at IRI Institute, USC Gould School of Law**

2 visible recommendations for this position:

"Aalok was in charge of a complete overhaul of the web site for the Initiative and Referendum Institute, which I run. He was very responsive to requests and continually thought outside the box by incorporating features that made the site easy for nontechnical people to update and use. Highly recommended." December 23, 2006

Top qualities: Expert, Good Value, Creative

[John Matsusaka](#), **Director – IRI Institute**

hired Aalok as a IT Consultant in 2005

"Aalok was able to take a stale website and convert it to a beautiful & efficient site after gathering requirements for database design, system architecture, and GUI. He did all this while learning a new language (Coldfusion) and applying it as if he has been developing for years. He is a very fast learning individual with a good self motivated attitude." November 12, 2006

[Nasi Peretz](#), **Senior Web Architect, University of Southern California - USC Law School**

managed Aalok indirectly at IRI Institute, USC Gould School of Law

### **Intern at Interwoven**

2 visible recommendations for this position:

"Aalok is a fast learner as well as an action taker. It would be a very steep learning curve for many to work with a complex software framework system. However, Aalok as an intern, he learned quickly and started and finished his task in a very short time period. He showed his willingness to learn. At the same time, he spotted some issues in the system, and he took initiative to suggest solutions for them. I see that he would be a good contributor if he becomes one of our employees." November 13, 2006

[Michael Dang](#), **Senior Software Engineer, Interwoven**

worked directly with Aalok at Interwoven

"Aalok is bright, ambitious programmer. During his internship, he finished his initial assignments ahead of expectation and actively started engaging other teams to find more work to do. Aside from demonstrating an ability to get up to speed quickly, he also demonstrated valuable energy in looking for more work." August 24, 2005

[David Nelson-Gal](#), **SVP - Engineering, Interwoven, Inc.**

managed Aalok indirectly at Interwoven

### **Application architect for registration system at Symbiosis Institute of Computer Studies & Research (SICSR)**

2 visible recommendations for this position:

"A hyper energetic individual capable of building and maintaining teams. Has the ability to learn fast and has a sound technical base. Capable of working under minimal supervision within the boundaries of the team." November 29, 2006

[Jitendra Pawar](#), **Project Manager, Symbiosis**

managed Aalok at Symbiosis Institute of Computer Studies & Research (SICSR)

"Aalok is a very smart, active & intelligent colleague. It was great to have him in our team. His problem solving capability always made him ghost buster at the time of crisis. His out of the box thinking capability and lookout for newer, faster, better solutions helped us a lot in the project.

Aalok has potential to rise above a situation and complete his job no matter what kind of difficulties come his way. He used to take charge and solve problem in case of any problem even if the problem is out of the domain.

The interesting part of his work was his focus in secure system design which any administrator would love to have in the system." January 4, 2007

[Rohit Srivastwa](#), **Intranet administrator**, Symbiosis Institute of Computer Studies & Research (SICSR)

worked directly with Aalok at Symbiosis Institute of Computer Studies & Research (SICSR)
